IN THE MATTER OF THE APPLICATION OF
 DATELAND PUBLIC SERVICE COMPANY,
 INC., FOR A PERMANENT RATE INCREASE.

DOCKET NO. W-02027A-08-0321

DECISION NO. 70847ORDER

Open Meeting
 March 3 and 4, 2009
 Phoenix, Arizona

BY THE COMMISSION:

On June 24, 2008, Dateland Public Service Company, Inc. ("Dateland" or "Company"), filed with the Arizona Corporation Commission ("Commission") an application for a permanent rate increase ("Application").

On July 23, 2008, the Commission's Utilities Division Staff ("Staff") issued its Letter of Deficiency.

On August 5 and August 19, 2008, the Company filed Amendments to its Application.

On September 19, 2008, Staff filed its Sufficiency Letter and classified the Company as a Class D utility.

On October 6, 2008, the Company filed for Staff approval its Curtailment and Backflow Tariffs.

On October 10, 2008, the Company filed an affidavit avowing it had notified its customers by mail on June 19, 2008, of its Application.

On November 28, 2008, Staff filed its Staff Report recommending approval of Dateland's Applications, subject to certain conditions.

On December 8, 2008, Staff filed its Amended Schedules to the Staff Report.

Having considered the entire record herein and being fully advised in the premises, the Commission finds, concludes, and orders that:

FINDINGS OF FACT

1. Dateland is an Arizona 'C' corporation engaged in the business of providing water utility service to the public approximately 50 miles southwest of Gila Bend, in Yuma County, Arizona, pursuant to authority granted by the Commission in Decision No. 39886 (January 29, 1969). The Company's present rates and charges for water service were approved in Decision No. 58594 (April 8, 1994).¹

2. On June 24, 2008, Dateland filed its Application for a permanent rate increase. The Company notified its customers of the proposed rates and charges by first class U.S. mail on June 19, 2008. No customer comments were received in response to this notification.

3. During the test year ended December 31, 2007, the Company served 103 metered customers who were all served with 5/8" x 3/4" meters.

4. Average and median usage on the 5/8" x 3/4" meters during the test year were 9,396 and 7,082 gallons per month, respectively.

5. The rates and charges for the Company at present, as proposed in the application, and as recommended by Staff are as follows:

	Present Rates	Proposed Company	Rates Staff

** Months off system times the monthly minimum per Commission rule A.A.C. R14-2-403(D).

*** 1.00% of Monthly Minimum for a Comparable Sized Meter Connection, but no less than \$5.00 per month. The Service Charge for Fire Sprinklers is only applicable for service lines separate and distinct from the primary water service line.

**** \$10.00 or 10% of balance, whichever is greater.

***** Meter charge includes meter box or vault.

6. Staff determined Dateland's original cost rate base, which is the same as its fair value rate base ("FVRB"), to be \$64,466. This is a \$64,422 decrease to Dateland's proposed FVRB of \$128,888, based primarily upon Staff's adjustment to accumulated depreciation, adjustments to plant in service and working capital. Staff's proposed rate base adjustments are reasonable and will be adopted.

7. During the test year, Dateland collected total operating revenues of \$39,329. Staff made no adjustments to test year operating revenues.

8. Staff increased Dateland's claimed test year operating expenses by \$6,696, from \$34,739 to \$41,385, due to adjustments to purchased power expense, salaries and wages expense, water testing expense, outside services expense, depreciation expense, income taxes, and miscellaneous expenses. Staff's proposed adjustments to operating expenses are reasonable and will be adopted.

9. Based on Staff's analysis, Dateland's present water rates and charges produced operating revenues of \$39,329 and adjusted operating expenses of \$41,385, which resulted in an adjusted test year net operating loss of \$2,056 and no rate of return on FVRB.

10. The water rates and charges Dateland proposed would produce operating revenue of \$63,549 and operating expenses of \$34,739, resulting in an operating income of \$28,810, for a 23.04 percent rate of return on its FVRB, and an operating margin of 45.34 percent.

1 11. The water rates and charges Staff recommends would produce adjusted operating
2 revenues of \$48,522 and adjusted operating expenses of \$42,956, resulting in a \$5,566 operating
3 income, for an 8.63 percent rate of return on its FVRB, and an operating margin of 11.47 percent.

4 12. The Company's proposed rate schedule would increase the average 5/8" x 3/4" meter
5 monthly residential customer bill (9,396 gallons) by \$22.99, or 88.4 percent, from \$26.00 to \$48.99
6 and would increase the median monthly residential customer bill (7,082 gallons) by \$17.21, or 66.2
7 percent, from \$26.00 to \$43.21.

8 13. Staff's recommended rates would increase the average 5/8" x 3/4" meter monthly
9 residential customer bill (9,396 gallons) by \$11.59, or 44.6 percent, from \$26.00 to \$37.59 and would
10 increase the median monthly residential customer bill (7,082 gallons) by \$8.12, or 31.2 percent, from
11 \$26.00 to \$34.12. Staff's recommended rates are reasonable and will be adopted.

12 14. Staff recommends that the Company file with Docket Control, as a compliance item in
13 this Docket, a schedule of its Commission approved rates and charges within 30 days after the
14 effective date of this Decision.

15 15. Additionally, Staff recommended that the Company be ordered to adopt Staff's
16 depreciation rates by individual National Association of Regulatory Utility Commission category on
17 a going-forward basis.

18 16. No objections were filed to the Staff Report.

19 17. According to the Staff Engineering Report, the Company's current system can
20 adequately serve its present customer base.

21 18. Staff reports that the Arizona Department of Environmental Quality reported no
22 deficiencies for the Company and determined that Dateland's water system is currently delivering
23 water that meets the water quality standards required by A.A.C., Title 18, Chapter 4.

24 19. The Company is not within an Active Management Area, and, as such, is not subject
25 to Arizona Department of Water Resources reporting and conservation requirements.

26 20. Dateland has in place approved curtailment and backflow prevention tariffs.

27 21. Dateland is current in its property and sales tax payments.
28

22. It is reasonable to allow Dateland to collect from its customers a proportionate share of any privilege, sales or use tax as provided for in Arizona Administrative Code ("A.A.C.") R-14-2-409(D).

23. Because an allowance for Dateland's property tax expense is included in the Company's rates and will be collected from its customers, the Commission seeks assurances from the Company that any taxes collected from ratepayers are being remitted to the appropriate taxing authority. It has come to the Commission's attention that a number of water companies have been unwilling or unable to fulfill their obligation to pay the taxes that were collected from ratepayers, some for as many as twenty years. It is reasonable, therefore as a preventive measure, that Dateland annually file, as part of its annual report, an affidavit with the Utilities Division attesting that the Company is current in paying its property taxes in Arizona.

24. We find that Staff's recommendations, as well as those recommendations set forth in Findings of Fact Nos. 22 and 23, above, are reasonable and should be adopted.

CONCLUSIONS OF LAW

1. Dateland is a public service corporation within the meaning of Article XV of the Arizona Constitution and A.R.S. §§ 40-250 and 40-251.

2. The Commission has jurisdiction over Dateland and of the subject matter of the Application.

3. Notice of the Application was provided in the manner prescribed by law.

4. The rates and charges authorized below are just and reasonable and should be approved without a hearing.

5. Staff's recommendations, as well as those recommendations set forth in Findings of Fact Nos. 22 and 23, are reasonable and should be adopted.

ORDER
